## **Tecnam P2008**

**with Garmin G3X avionics, Rotax 912iS engine,  
3-bladed prop and more**

***The sleek and beautiful lines of the single-engine Tecnam P2008 incorporate a level of comfort, quality and efficiency that have made it the ideal touring aircraft. The P2008 is certified in the light sport category and with its carbon-fiber fuselage, metals wings and stabilator, the Tecnam P2008 has a vast number of advantages over traditional aircraft. This combination of both composite material and metal has resulted in a more fuel efficient and much quieter aircraft that gives the P2008 an exceptional balance of flight control feel with a comfortable cross country ride. You will still have room to stretch out while still being able to take what you need with you. The P2008 will cruise at 110 knots using only four and half gallons of fuel an hour and giving you a range of over 625 nautical miles. Contact us today for a personal showing of this exceptional Tecnam P2008.***

# ***Corporate Concepts International, Inc.***

***Our Tecnam P2008 is equipped with the optional Garman G3X avionics package. The Garmin G3X is a two screen, new generation, state-of-the-art avionics package that provides safety and reliability. The G3X package features GDU-460 and GDU-465 displays, dual GSU-25 ADAHRS, a GEA-24 engine instrument module, and a back-up airspeed indicator and altimeter. Additionally the P2008 is equipped with a Garmin GMA-240 audio panel, a Garmin GTR-200 Comm transceiver, a GTX-23 Transponder and has been upgraded with ADS-B In/Out to comply with regulations taking effect in 2020.***
