

CORPORATE CONCEPTS INTERNATIONAL, INC.

King Air B200
Exceptional Opportunity – Delivered with
Fresh Phase 1-4 inspections and
FAA Airworthiness certificate

Corporate Concepts International is proud to introduce this King Air B200 to the market. The King Air family of aircraft is one of the most popular turboprop aircraft ever produced. Over 6,000 King Airs have been manufactured with over a third of them being the B200 variant. Known for its versatility and reliability the King Air B200 was first introduced in 1980 and remains in production after over 40 years. Our King Air B200 has optional Raisbeck modifications including exhaust fairings, enhanced performance leading edges, high flotation gear doors, dual aft strakes and four-blade Hartzell props and will be delivered with a fresh Phase 1 – 4 and on the U.S. registry. Email or call to request a private viewing or further information on this immediately available King Air B200.

This King Air B200 features seating for eight passengers with a four-place conference group in the aft section of the cabin, a single aft facing seat opposite a two-place divan in the forward section of the cabin and a belted potty seat opposite the cabin entry door. exceptional condition.

The Collins avionics suite includes dual nav radios, dual VHF transceivers, a DME, an ADF and dual transponders. Additionally the cockpit has been upgraded with a Garmin GPS-400 GPS/moving map, a Garmin transponder and ADS-B.
